

EYES OF EUROPE ARE ON AMERICA

Combination of Trade or
War Against Us Is
Impossible.

TIMELY TALK BY GAGE

Secretary Warns People Not
to Become Intoxicated by
Past Successes.

A PRUDENT FOREIGN POLICY

Chicago, May 6.—An important and highly significant interview was given the Record-Herald yesterday by Secretary of the Treasury Gage, who is now, in the absence of the president virtually at the head of the American government.

The secretary replies to those European statesmen who have suggested an international combination against the United States and tells them such a combination is impossible. He intimates that we are as a nation so strong in our resources of men, money and war material that the world would not dare attack us, even if there was anything to be gained by doing so.

Warns the Americans.

At the same time he warns the Americans that although they have made rapid strides to the front and have assumed leadership of the world in all the elements of national power they must not permit themselves to become intoxicated with success.

American foreign policy, the secretary cautiously points out, must be prudent and equitable, in order to avoid giving justification for the suspicions that are now so rife in the old world.

More important than all, perhaps, the secretary of the treasury suggests that we can keep up our great export trade only by adoption of the principle to "give" and "take" through reciprocity arrangements—that if we expect to sell to others we must buy from them—and that therefore our tariff walls must be intelligently scaled.

A Remarkable Prosperity.

The secretary said: "We have witnessed during the last three or four years a remarkable development in our international industrial relations. There has been not only an enormous increase in our exportation of the products of the soil, but of manufactured goods also, bringing other nations into our debt, according to the commercial balance sheet, during the short period of three years to an amount something like \$1,700,000,000.

"The responsibilities of our people in view of these great changes are broadened and deepened. Sobriety and discretion should be our guides. We ought not to be intoxicated by the appearance of success which the last three or four years have brought. Three or four years is but a brief period in a country's history, and all human affairs are subject to vicissitudes. Some bring with them depression, as others give a sense of elation and triumph."

WILL LAUNCH THE BATTLESHIP OHIO

Mrs. McKinley Will Press Button Setting
New War Vessel Afloat at San
Francisco on May 18.

San Francisco, Cal., May 6.—The much discussed question, to whom would fall the honor of launching the battleship Ohio, has been settled by the announcement that the act will be performed by Mrs. Wm. McKinley. After the simple ceremonies preceding the event, consisting of short addresses by Governor Nast, President McKinley and Irving M. Scott, Mrs. McKinley will press the button, and the released ax will sever the rope just at the turn of the tide at 12:26 p. m. Just as Mrs. McKinley touches the button Miss Helen Deshler of Columbus will break the bottle of California wine over the bow and give the new fighting machine the name of Ohio.

THE WHOLE CHURCH TAKES THE PLEDGE

Entire Congregation at Wilkesbarre,
Pa., Swears Total Abstinence—
The Scene Is Impressive.

Wilkesbarre, Pa., May 6.—A thousand, people—men, women and children, the entire congregation of the Holy Savior church of this city—last night marched to the church and there took the pledge to abstain from the rest of their life from spirituous liquors. Between seven and eight o'clock Father Curran, the pastor,

took the pledges from groups of fifty, and gave them his blessing.

Perhaps the most impressive feature of the ceremony was the fact that children, parents and grandparents, sometimes families for three generations, were among those who took the oath. The parade which preceded the ceremony was several blocks long, and the streets were lined with thousands of persons, who threw flowers in the path of the marchers and sped them on with applause. The way was led by 100 little girls in white gowns and wearing wreaths. Behind them marched boys of the same age wearing cadet uniforms and them in regular order came the older children, the young people, the middle aged and finally the old, some of whom had to be assisted by their children.

CHINESE MASONS ARE IN CONCLAVE

Interesting Session of Secret Order
Members from Four States Is Held
At Oshkosh, Wis.

Oshkosh, Wis., May 6.—One of the largest and most important conclaves of Chinese Masons in the history of the northwest was held in this city last evening. It was attended by 100 celebrities from Wisconsin, Michigan, Minnesota and Illinois. The cities represented were Chicago, Milwaukee, St. Paul, Minneapolis, Stevens Point, Green Bay, Grand Rapids, Appleton, Madison, Neenah, Menasha, Fond du Lac and Kaukauna. Moy Chung of Philadelphia, grand master of the order presided. A dozen Chinamen were given the first degree and about thirty the thirty-second degree. A banquet was a novel feature.

AMERICAN TROOPS MARCH TO TON-KU

United States Cavalry and Artillery Es-
corted to Peking City Walls
by a British Detachment.

Peking, May 6.—The United States cavalry and artillery left Peking this morning to march to Ton-Ku. Imposing farewell ceremonies attended their departure. Sir Alfred Gasseele and the other British generals with their staffs were present, and the British commander sent a detachment of Balmchi's who escorted the Americans outside the city wall.

General Chaffee publicly thanked the cavalry and artillery for their services in the international relief expedition and for their behavior since, which has been, he said, a credit to themselves and their nation. The infantry and headquarters staff will leave by rail as soon as the transports arrive at Taku.

MELBOURNE GREETES DUKE AND DUCHESS

England's Royal Pair Warmly Wel-
comed in the Capital of Australia—
Great Multitude Turn Out.

Melbourne, Australia, May 6.—The Duke and Duchess of York landed from the royal yacht Ophir this afternoon. They were received with an enthusiastic welcome. The huge multitude cheered uproariously as they passed along the quarter mile carpeted pier and the seven miles of gorgeously decorated streets to the governor's house. Twelve thousand troops with twenty-one bands escorted the royal couple.

CRUSADE OF TURKS AGAINST CHRISTIANS

In the Future Missionaries Will Not Be
Allowed to Open Schools—Unrest
Bulgaria and Macedonia.

Constantinople, May 6.—The Sultan's official organ is preaching a crusade against christianity. It says in the future that missionaries will not be allowed to open schools. The minister of war has ordered all heavy artillery and two army corps to the Turkish-Bulgarian frontier. The continued unrest in the Balkans is responsible for the order.

The unrest in Macedonia continues. In a conflict between Turkish troops and Macedonians at Selini a number of Macedonians were killed before the uprising was suppressed.

NEW SHAMROCK ON ANOTHER TRIAL SPIN

Cowes, May 6.—The cup challeng-
er Shamrock went out for another
trial spin today accompanied by
Shamrock the first.

Both yachts carried full racing canvas. The race started with the boats almost beam to beam. Old Shamrock soon galloped into the lead and at the finish of the beat to windward, on a leg eight miles in length, was ahead by one minute and fifteen seconds.

Miss Belle Carpenter, of Chicago, spent Sunday with relatives in this city.

EL PASO HONORS THE PRESIDENT DIAZ SENDS GREETING BY PROXY

Several Members of the President's Party Attended
the Bull Fight at Juarez on Sunday—One
Bull Gored a Horse to Death

El Paso, May 6.—Several members of the president's party attended the bull fight at Juarez on Sunday. One bull gored a horse to death. This morning's features of the visit were a ride around town and a breakfast given to Mrs. McKinley by the ladies of the city.

Address of President Diaz.
President McKinley and his party reached El Paso, the gateway to Mexico at nine o'clock yesterday morning. It was the original intention to have the president's of the two great American republics shake hands across the border, but owing to the fact that the Mexican congress was in session President Diaz was unable to leave the capital.

He sent instead General Juan Hernandez, commander of the second military zone of the state of Chihuahua, with a personal note and the Mexican military band.

Governor Miguel Chumada, the governor of Chihuahua, also came in person to El Paso to pay his respects to the McKinley party.

Carry Message From Diaz.
The Mexican delegation representing President Diaz was in full uniform and every official detail was strictly observed.

After a reception in President Mc-

Kinley's car General Hernandez presented the address of President Diaz, to which the president sent an appropriate reply.

Party as Quiet Day
It being Sunday the president had requested the local committee not to arrange a program for the day. His wishes were observed and the military parade and other exercises were postponed until tomorrow. The president and Mrs. McKinley and members of the cabinet attended the Stanton street Methodist church in the morning and some of the party went out for a drive in the afternoon.

After dark last night the Mexican band serenaded President and Mrs. McKinley at the train. No horns or drums were used, and the soft Spanish airs on guitars and mandolins were thoroughly enjoyed.

Mexicans Celebrate at Juarez
The Mexican city of Juarez, just across the Rio Grande, was celebrating May 5, the anniversary of the defeat of the French invaders at Puebla, much as the Fourth of July is celebrated in the United States.

The great feature of the celebration was a bull fight. A famous matador had come to Juarez from the City of Mexico for the occasion.

WHAT IF THERE WERE NO GOD? HERRON'S WORLD WITHOUT CREED

He Says Life's Inspiring Force Must Come Out of
Human Experience—The Mark of Faith is
the Mark of Fear.

New York, May 6.—Professor Geo. D. Herron told a crowd of Brooklynites yesterday how the world would get along without a God. He was addressing a meeting called at the instance of the Brooklyn Philosophical association.

It had been announced that Mr. Herron would after his lecture, reply to inquiries which might be made in the course of discussion, but he begged off from this. His subject was: "What If There Were No God?" He said: "A man who would be good only because he felt that there was a god over him compelling him to be good would in no sense be a moral being."

"What if the whole fabric of religious faith went down? Any faith that shall become an inspirer of religious adventure or any other must come out of a human soil."

"Suppose all the gods of the sky are dead. Any new inspiring force must come out of human experience, out of known facts. The world today is exhausted. It is without a religion. The gods of the Bible are dead and the old altar fires are burned out. No new altar fires have been lighted and the world today is seeking a religion."

"The mark of faith is the mark of fear. Blind obedience of any sort is slavery. Whatever the religion or the light of the future is to be, it must come out of human life and experience. We do not need the gods of the sky."

FOR CHEAPER FARE ON THE RAILWAYS

The Assembly Orders the Fare Re-
duction Bill To Be Engrossed—
New Supreme Judges.

Madison, Wis., May 6.—The assembly this morning engrossed the cheaper railway fare bill. It provides that the maximum passenger rates on roads earning over \$5,000 shall not be over two and one half cents per mile.

The Brunson bill giving the railway commission power to regulate railway freight rates and punish for freight discriminations. The constitutional amendments resolutions were also ordered engrossed increasing the number of supreme court judges from five to seven and permitting municipal bonds to run for a period of five years. Governor La Follette this morning vetoed the bill providing for the licensing of private detective agencies.

The indications are now that a congressional apportionment will be made. A bill will be presented to the apportionment committee tonight and the outlook is that it will be adopted. Milwaukee gets one district alone and the Second district with only Waukesha county added. The First and Tenth districts are the only ones left at present, while the greatest changes are made in the central districts of the state.

Regular meeting of Crystal camp, No. 132, R. N. of A. Wednesday evening.

TO BRING BACK HUSBANDS. City of St. Paul Will Send Abroad for Wife Deserters.

St. Paul, Minn., May 6.—The county board of control has decided to seek requisition papers in order to secure the return of husbands to the number of thirty in this state who have deserted their wives. The last legislature passed a law making wife desertion a felony, which is punishable in the penitentiary from one to three years, with a provision for a suspension of the sentence if a husband gives a bond to the state to support his wife and family. The deserting husbands are located in various states and the effort to secure their return will doubtless give rise to some novel complications.

ORGANIZING SPLIT AMONG TRAINMEN

Rival Railway Association Being
Formed in California—A. R. U.
Officers Opposed to It.

Milwaukee, Wis., May 6.—The attempt which is being made on the Pacific coast to rear up a new organization of railway employees over the ashes of the old American Railway union, and to include in its membership the members of all the railway unions in the country is likely to receive vigorous treatment at the hands of the Brotherhood of Railway Trainmen, which opens its fifth biennial convention today.

The national officers of the trainmen who are in the city, do not hesitate to say that they see in the new organization a menace to their own union, and denounce the attempt to build it up as a movement to disturb their own organization. It is not believed by the officers that Eugene V. Debs is behind the movement, but from information which is in their possession from the Grand Lodge of officers say that the principles of the new union are almost the same as those of the A. R. U.

The headquarters of the new organization are in San Francisco, and the man who aspires to take the place of Eugene V. Debs at the head is George E. Estes, general chairman of the order of railway telegraphers on the Pacific coast. So far there are 400 members of the United Brotherhood of Railway Employees, which is the name of Mr. Estes organization, but it is said that strong efforts are being made to draw members from the engineers, firemen, brakemen, conductors and telegraphers.

JACKSONVILLE, FLA., UNDER MARTIAL LAW

Supplies Pouring in from All Direc-
tions—The Loss of Life Was
Very Heavy.

Jacksonville, Fla., May 6.—The hunger of 10,000 homeless people was satisfied today upon the arrival of relief trains and boats bringing provisions from neighboring towns. Early this morning a commissary was established in the center of the city and thousands were fed during the day. The relief fund is growing hourly and every mail brings offers of assistance.

Today an order was promulgated under martial law, which is being rigidly enforced, requiring all merchants whose stores were spared by the conflagration to open their doors and sell to all who asked. The streets have been crowded all day with shoppers who lost all in the fire and many of the stores will remain open all night.

It is estimated that 3,000 persons have left the city and every outgoing train is crowded with refugees. Five carloads of tents were received today, the property of the state which are to be used by the homeless temporarily.

It is now beginning to appear that loss of life attended the great fire of Friday. Just how many persons perished cannot be ascertained at this time. A number of unknown people were drowned in the river while attempting to escape from the flames.

They were hemmed in by the fire and took refuge on the docks. The latter were soon in flames and one after the other jumped into the St. Johns. Several of them crowded into a bateau, which was capsized and nearly all were drowned.

RUMOR OF A NEW RAILWAY COMBINE

Chicago, May 6.—John J. Mitchell has gone again to New York, presumably to be present at a conference of important railroad interests. It is the belief in La Salle street that negotiations are under way looking to a combination of the St. Paul, Northwestern and Union Pacific, to be operated in connection with the Vanderbilt eastern lines. The remarkable advance of St. Paul in Saturday's market and the strength and activity of Union Pacific tend to confirm the belief. Certainly St. Paul is not selling at its present price on its dividend

KILLED FOR THEIR CHRISTIAN FAITH

Merciless Slaughter of Men,
Women and Children
in China.

STORY OF EYE WITNESS

Thirty Three Protestants and
Twelve Roman Catholics
Cruelly Beheaded.

BODIES AWFULLY MUTILATED

Washington, May 6.—The last mail from China brings a thrilling account of the murder of the missionaries at Tai Yuan Fu on the 5th of last July, which was taken down in writing by Dr. J. A. Creasy Smith from the narrative of Yung Cheng, a member of the Baptist church who was an unwilling witness of their martyrdom. Yung Cheng is vouched for as a Christian, excellent character and absolutely trustworthy.

His Wife Clung to Him.

"The first to be led forth," Yung Cheng says, "was Mr. Farthing, a Baptist minister. His wife clung to him but he put her aside gently, knelt down without saying a word and his head was struck off by one blow of the executioner's knife. He was quickly followed by Pastors Huddle and Beynon, and Drs. Lovitt and Wilson, all of whom were beheaded by one blow of the executioner. Then the governor, Yu Hsien, grew impatient and told his bodyguard, all of whom carried big beheading knives with long handles to help kill the others. Pastors Stokes, Simpson and Whitehouse were next killed, the last by one blow only, the others by several.

Then Women Were Murdered.

"When the men were finished the ladies were taken. Mrs. Farthing had hold of the hands of her children who clung to her, but the soldiers parted them and with one blow beheaded their mother. The executioner beheaded all of the children and did it skillfully, needing only one blow; but the soldiers were clumsy, and some of the ladies suffered several cuts before death.

"Mrs. Lovitt was wearing her spectacles and held the hand of her little boy, even when she was killed. She spoke to the people as near as I can remember: 'We all came to China to bring you the good news of the salvation by Jesus Christ; we have done you no harm only good; why do you treat us so?' A soldier took off her spectacles before beheading her, which needed two blows.

Catholics Followed Next.

"When the Protestants were all killed, the Roman Catholics were led forward. The bishop, an old man, with long white beard, asked the governor, Yu Hsien why he was doing this wicked deed. I did not hear the governor give him any answer, but he drew his sword and cut the bishop across the face one heavy stroke; blood poured down his white beard and he was beheaded. The priests and nuns quickly followed him in death.

"Then Pastor Pigott and his party were led from the district jail, which is close by. He was still handcuffed and so was Mr. Robinson. He preached to the people to the very last when he was beheaded by one blow. Mr. Robinson suffered death very calmly. Mrs. Pigott held the hand of her son even when she was beheaded. The lady and two girls were killed also quickly.

Forty-Five People Beheaded.

"On that day forty-five foreign people in all were beheaded, thirty-three Protestants and twelve Roman Catholics. The bodies of all were left where they fell until the next morning, and it was evening before the work was finished. During the night they were stripped of their clothing and other things, such as rings and watches. The next day they were removed to a place inside the great south gate, except some of the heads, which were placed in cages on the gates of the wall."

COLOMBIA REVOLUTION OVER.

War Has Degenerated Into Guerilla Warfare, But Business Is Paralyzed.

Kington, Jamaica, May 6.—Claude C. Mallett, the British consul at Panama, arrived here today on the steamer Altrato on his way to England. Mr. Mallett was interviewed by the representative of the Associated Press on conditions in Colombia and said that the revolution there had degenerated into a guerilla warfare, and that the strength of the rebels was not known. The country is altogether unsettled in consequence of the struggle. Business is paralyzed as merchants are afraid to trade under the present conditions.

O. G. Gibbs of Madison spent yesterday in this city, the guest of relatives and friends.

MODEL BARN ON ILLINOIS FARM; LIGHT AND AIR IN PROFUSION

A correspondent of the Rockford Register-Gazette says not long ago he was driving through Boone county, Illinois. His attention was called to a large round barn on the beautiful farm of Mr. R. E. Willard. An inspection of this commodious structure revealed some features which might prove interesting. The building is 240 feet in circumference. The foundation wall is two feet thick and contains 50 cords of stone. Twenty-one windows afford light for the basement, which in this particular is not surpassed by any stable where horses and cattle spend their winter hours that the writer has ever seen. With their dark, damp gloom, many stables are breeders of microbes and death dealing germs which lurk in great profusion in every corner. However the warm genial rays of germ killing sunlight which pervades every nook and corner of this magnificent barn of Mr. Willard's is most commendable.

Another splendid feature of this winter home of the cows is the pure air which is provided for with three-inch tile every ten feet in the stone wall above the cows' heads, introducing a constant supply of fresh air under control of the herdsman. From the center of the room is an enclosed air shaft, two feet square, extending to the cupola, 30 feet above the basement floor. The draught is very powerful, through this shaft and removes from the floor all the carbonic acid which vitates the atmosphere of many cow stables. The air in Mr. Willard's stable when the writer was there was pure as a dwelling house. The basement floor is 5,000 feet of floor space, and in its construction consumed 121 barrels of the best Portland cement. The water light trough in front of the stanchions is so constructed that the cows may be watered in the barn. The fall from the stanchion to the gutter is one inch in four feet. There are 64 stanchions, one row facing the outside wall and the other toward the center, with driveway between sufficiently wide to admit of team and wagon for cleaning out. The crown of the driveway is two inches higher in the center than on the outside. The horses' stalls are provided with iron racks for hay, iron feed boxes and iron boxes for salt. There are box stalls that may be used for hospital stalls or for any other purpose desired. There is a tight harness room within easy access of the horses.

The milk room is entirely shut away, however, a part of the main floor provided with a cement vat and overflow as the water from the well cools the milk. It is needless to say that this room was a model of cleanliness and purity. All outside doors are of three ply lumber and weigh 758 pounds, provided with weights which cause them to rise with a slight touch of the hand. It is not necessary, however, to open these large doors for the admission of man or beast, as there is a small door which swings open by touching a spring latch hardly observable, it is so nicely adjusted within the large door, rising with the large door when necessary to open for the admission of a loaded wagon. All posts dividing stalls where horses are kept are supported on a cement rock, raised several inches from the floor to avoid dampness or decay. The apartment for horses is separated from the cow stable by railroad doors.

The second floor is doubly supported on 3x12 stanchion bars in the center, and 2x10 stanchion bars on the outside. This double floor above the cows and horses admits of no possible taints arising from the breath of the animals below reaching the hay loft on the third floor, which is also of matched flooring containing 5,000 feet of space and a capacity of 200 tons of hay, eight cubic feet to the ton. There is a circular granary in the center of the barn, 88 feet in circumference and 12 feet deep, with a capacity of 4,000 bushels, machine measure, and was full of oats when the writer was there in February. On the second floor next to the outside wall is a permanent corn crib of 3,000 bushels capacity. This not being of sufficient capacity to hold the present year's crop a temporary crib was provided with woven wire fencing from floor to ceiling, which was also full of last year's corn, consisting of 2,000 bushels. The writer also noticed several large cribs of corn outside, full from floor to ceiling. There is 5,000 feet of floor space on the second floor and this will admit of ten loads of hay on the circle all at one time. The bedding from above is dropped through a trap door to the stables below, an arrangement that is a model of convenience.

for rain and will require constant watering to bring them along.

The shipments out of storage reach 20 carloads, 1000s, for the week past from this station to all points. Since last report 650cs of cigar leaf were exported from New York.

GOLF NOT POPULAR AT THE UNIVERSITY

According to the Daily Cardinal Golf is not a popular game at the University of Wisconsin and is liable to be dropped from the list of out door sports. In speaking of the game it says:

Golf at the University has reached a crisis, and unless something is done at once the game may have to be given up. A meeting was held Tuesday but no university men were present and the meeting was adjourned until this evening at 7:30 at the Park hotel.

For several years golf enthusiasts at the university have maintained grounds near Madison and a large number have been interested in the game. Besides university men a number of townspeople have helped support the links and have been permitted to play. This arrangement has been found satisfactory.

These town men are still willing to lend their support, but will not take the responsibility of holding offices and managing the links. This will have to be done by university men, and it is for this purpose that the meeting will be called tonight. It is necessary that all who desire to play golf this year ally themselves with the club for the city organization the Maple Bluff Golf Club, is not accessible to any but city people.

AMUSEMENT NOTES

"The Burgomaster," fresh from its triumphant tour of the country, will be presented for the second time this season, at the Myers Grand Thursday, May 9. Without a doubt this merry melange is the cleverest musical travesty presented for many a day, and its reception here, and in fact, everywhere, has been little short of an ovation, as it has captured the good will and praises of the press and public. This musical comic is of unusual distinction, inasmuch as the book and lyrics are of a kind that not even many comic operas of international reputation can boast of, with equal merit, and music is of that light, catchy kind, that tired people in a city appreciate, as it has that pleasant tingle that brings encores. In fact, their eise none of that languid feeling about "The Burgomaster." Pixley's lines and Luder's music appear to suit the actors as much as those across the footlights, and the good fellowship, if you can call it that, makes the piece go faster than our amusement loving public have had the good fortune to see in years. In fact, "The Burgomaster" is the one great musical comedy triumph of our season and its return engagement should be hailed with delight by all admirers of wit, beauty and song.

Love, the theme of the poet and the minstrel from time immemorial, is the basis of nearly all plays that touch the popular fancy. It is so too with "The Watch on the Rhine," in which Charles H. Yale and Sidney R. Ellis are starring that "golden voiced singer," Al. H. Wilson, who through the medium of his magnificent voice, reaches out and grasps that well-spring of emotion—the heart. Mr. Wilson has several songs that deal with love, love of a different kind in each one. "Love is All in All" is an exquisite ballad of much tenderness that fascinates every young maiden who is sure she has a sweetheart. "My Little Fraulein" is an irresistible waltz song that lovers of dancing delight to hear. "A Song of Home" as its title indicates, appeals to every heart that has known a parent's love. "The Teakettle Song," a lullaby of sweetest strain, is sure to captivate every mother and tend toward loving her infant more, if that can be possible. There are other melodies on love which Mr. Wilson sings. They must be heard to be appreciated. Messrs Yale and Ellis have surrounded their young star with a company numbering a score of people and staged their production with a wealth of scenic grandeur that is marvelous. The engagement will be at the Grand next Saturday evening.

Manager Myers witnessed the production of "The Burgomaster" at the Metropolitan theatre at St. Paul last Monday evening. The same company practically with the same scenic effects that were seen here last October are with the production which comes to the Myers Grand Thursday evening. The prices have been scaled down to \$1 for the first floor excepting the first four rows of the orchestra. Balcony 75 and 50 cents. Gallery 25 cents. This practically makes the price \$1, 75c, 50c and 25c. Mr. Myers was instrumental in having this scale of prices adopted for the return engagement.

Box sale of reserved seats opens Tuesday morning at 9 o'clock.

Jennie—To have a beautiful neck wiggle your head from side to side every night take Rocky Mountain Tea. It's a short cut to a graceful form. 35c. Smith's pharmacy, kodak agents, next to postoffice.

POINTER FOR BELOIT

The Resentful and Jealous Little Burg Has No Cinch On the Delavan Branch.

Beloit may not be so secure as is thought by many of her citizens in the feeling that the Beloit, Delavan Lake and Janesville electric road will have to run to Beloit or that the Delavan line will be built from that city.

They may lose the Delavan line and they may also lose the power house. The refusing to grant the railroad more than a twenty year franchise may recoil upon them in a way they will not like.

Certain developments lead the people of this city to think the Delavan line may be built from this city by the way of Johnstown and that the power house may also be located here.

If in the future the road should be extended to Madison, as undoubtedly it will, Janesville will be in the center of the system which will be an ideal place from which to generate power. Although very little is being said about the proposed changes a strong pull is being exercised to get the route changed to the advantage of this city.

Mrs. Emma M. Wilbur.

Mrs. Emma M. Wilbur, wife of F. M. Wilbur of Orange, Cal., and sister of John M. Saylor of this city, died at her California home last Monday, April 29. Some time ago she suffered a severe attack of the grip and pleurisy and her death was caused by dropsy which followed.

Mrs. Wilbur was very well known in this city. She resided for many years in the town of Harmony and in Milton and was prominent in the Woman's Relief Corps work of the state. She was one of the organizers of W. H. Sargent Corps and served several terms as president of the corps at Milton and at Orange. She was an estimable woman of high character and was honored and loved by all who knew her.

The family moved to California about twelve years ago and about two years ago they returned to Wisconsin for a visit, spending several weeks with relatives and friends in this city. She leaves a husband and two daughters, Nellie and Cora, both of whom are married and live at Orange. The oldest daughter, Maude, died several years ago and is buried at Orange.

Served Notice on the City.

This afternoon Mabel Engbretson filed notice with City Clerk Badger that she would hold the city responsible for all damages sustained by her fall on Ruger avenue, April 21, caused by a fall on a defective sidewalk. The notice says that the walk was in bad condition and unsafe for foot passengers. Mrs. Engbretson is the wife of Emil A. Engbretson, and while walking with him on Sunday evening caught her foot on a loose board in the sidewalk near Mrs. Mary McKewan's home and was thrown violently to the walk, fracturing her knee cap.

By the time the city gets a few more damage suits on its hands more effective measures will be taken to see that the walks are kept in repair.

"Children love Mrs. Austin's Wheat Food, because it tastes good, better than oatmeal and easily prepared. Ask your grocer for it."

Notice to Contractors.

Sealed proposals will be received at the office of Evans & Morris, architects, 429 Hayes block, until Wednesday, May 8, 1901, for carpentry work on Janesville Canning Co.'s building. Bids to be opened at eight o'clock. The plans and specifications can be seen at above office.

One Dose

Tells the story. When your head aches, and you feel bilious, constipated, and out of tune, with your stomach sour and no appetite, just buy a package of

Hood's Pills

And take a dose, from 1 to 4 pills. You will be surprised at how easily they will do for you, cure your headache and biliousness, rouse the liver and make you feel happy again. 25 cents. Sold by all medicine dealers.

Paint? Paint? Paint?

That is the question, whether it is better in the end to suffer the sorrows and disappointments that POOR paint will bring, or at the start provide the BEST that can be bought and end it there. There is but one BEST and that is

SUGAR BEET CULTURE IN BADGER STATE

Big Plant at Menomonee Falls Will Be Ready to Reduce a Crop This Fall.

"We are daily receiving and placing our machinery in position at the Menomonee Falls sugar plant, and will have everything in working order by October 1, when the beets to be raised for us in Wisconsin this year will be coming in," said R. G. Wagner, manager of the new Wisconsin sugar company, to a Milwaukee Evening Wisconsin reporter. Mr. Wagner, who with is father, J. G. Wagner, is largely interested in the enterprise gave some interesting facts and figures relative to the first Wisconsin beet sugar plant and the sugar question generally. He said that the Wisconsin Sugar company would expend the sum of \$350,000 in establishing its plant, and that this season 4,000 acres of sugar beets would be raised by the farmers in Waukesha, Washington, Ozaukee and Dodge counties or a radius of about thirty miles of the plant at the Falls. Continuing, Mr. Wagner said:

"It may be of interest to your readers to state that, in order to keep up with the natural increase in the consumption of sugar in the United States, it would be necessary to build and operate twenty-five new sugar factories every year. Our plant will have a capacity of 12,000,000 pounds of sugar a year, which we could sell in the state of Wisconsin alone, as this state alone buys \$20,000,000 worth of sugar every day, or \$6,500,000 a year. Wisconsin consumes 130,000,000 pounds of sugar annually, while the United States consumes 2,500,000 tons every year and at present less than 500,000 tons are produced in this country. The annual increase in consumption of sugar in this country since 1885 has been 6 per cent., amounting at the present time to 150,000 tons increase a year. In 1897 the state of Michigan built one sugar factory—all there was in the state. Since then eleven more have been erected. The state of Wisconsin would require sixteen factories of the capacity of ours to produce the quantity of sugar consumed yearly by her own citizens, and if that number of factories were running here they would pay to the farmers for beets, about \$3,500,000 annually. The government investigations show that in about two-thirds of the state of Wisconsin, and in the southern belt particularly, good sugar beets can be grown to advantage. Up to this year very few sugar beets have been raised in Wisconsin, but this year there will be 4,000 acres, the entire output of which will go to our factory. This acreage will be sufficient for this year, and the 4,000 acres will produce about 60,000 tons of beets, equal to 6,000 tons of sugar."

TOBACCO PLANTS SLOW COMING UP

Growers Should Give Especial Attention to Their Beds—Care and Attention Needed Now.

The absence of rain since the seed beds have been laid has been very much against getting an early stand of plants, says the Tobacco Reporter. This, taken in connection with the heavy freezes that followed the early sowing, ought to cause the growers to give especial attention to their beds. Frequent wetting of the beds are essentially necessary in the absence of rains after sprouted seed has been sown. If the young plants do not begin to show now on beds planted before the freeze, better sow other seed without delay. Watch the beds closely these days and keep the young plants as soon as they appear, coming forward as rapidly as possible. Don't let a single watering suffice, but follow with a dressing of liquid fertilizer if necessary. The first requirements of a successful tobacco grower is to secure plenty of plants at the proper time for transplanting. To do this means care and attention to all the details. Don't trust to luck entirely and expect to succeed. Don't wait for rain either if your beds need watering. The time for intelligent work is now.

The absorption of the remnants of last season's crop is steadily going on in most of the growing sections, and buyers are exhibiting a disposition to clean up the balance left on growers' hands. The export grades are especially looked after and are being rapidly gathered up at prices that generally range from 4 to 6c. An occasional lot of better goods are taken at prices heretofore quoted for assorted tobacco.

Mr. L. Well of New York has closed some important deals with local packers during the week, buying nearly 1000cs of new goods of Conway Bros., and a 500cs packing of Heggard at Orfordville, and several lots of Janesville dealers.

Business in old leaf is generally in a small way and the local market is becoming rather bare of desirable stock, although packers are receiving many inquiries for samples. L. B. Carle & Son sold a couple hundred cases and C. L. Culton a 60cs lot for the week.

The extreme warm weather of the week has started the bundle tobacco into sweating and where it has warmed up the leaf is looking exceedingly fine. No indications of the much dreaded black rot are to be found.

The late purchased tobacco is still being delivered and several of the packers have work in sight for some weeks yet.

The new plant beds are suffering

A CLOSE CALL TO
LOSING HIS LIFE

John McManus Knocked Down by a
St. Paul Engine Near the Han-
son Factory Saturday.

John McManus, a brother of Mrs. James Ryan had a close call to losing his life Saturday afternoon while walking along the railroad tracks near the Hanson factory. He was coming toward the city and stepped off the Northwestern track to allow a handcar to pass. The tracks of the two roads come close together at this point and when he stepped out of the way of the hand car on the Northwestern he stepped onto the ends of the ties just outside the rails of the St. Paul track.

The 5:10 train from Madison was coming toward the city and was right onto McManus when he stepped onto the St. Paul line. He did not seem to notice the approaching train, which was so close to him that Engineer Roe did not have time to stop. The engine struck McManus and knocked him down. Fortunately for him the blow threw him away from the wheels so that he was not run over by the train and cut up.

The train was stopped and backed up to where McManus was lying. He was placed in the baggage car and brought to this city. The patrol wagon was called and the injured man was conveyed to Mrs. Henderson's hospital on South Main street. He presented a sorry appearance being covered with blood, but seemed to have plenty of strength as he sat up in the wagon from the station to the hospital.

Dr. Joe Whiting, the company's surgeon was called and fixed the injured man up. He found that McManus had sustained a bad fracture of the right arm, the bones being badly shattered between the elbow and shoulder. He also had a scalp wound on the back of his head on a level with the ears about an inch and a half long which bled freely.

The injured man is not considered to be in a dangerous condition and is resting as well as could be expected. It was a close call and McManus was fortunate to get off as well as he did. He is about forty-five years of age and was injured in an accident some years ago, and since that time has been a little off which may account for his not noticing the train which struck him.

For Over Fifty Years.
Mrs. Winslow's Sore Throat Remedy has been used for children while teething. It soothes the child, softens the gums, allays all pain, cures wind and colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle. Sold by druggists throughout the whole world.

Pan American Exposition Rates via C. M. & St. P. Ry.
One fare plus one dollar via route of ticket, for the round trip, on May 7, 14, 21, and 28; good returning to leave Buffalo not later than midnight of the Saturday following date of sale. From April 30 to May 31; daily, at rate of one and one-third fare for the round trip; good for 15 days. Further particulars at passenger depot.

Half the ills that man is heir to comes from indigestion. Burdock Blood Bitters strengthens and tones the stomach; makes indigestion impossible.
Accidents come with distressing frequency on the farm. Cuts, bruises, stings, sprains. Dr. Thomas' Electric Oil relieves the pain instantly. Never safe without it.

"Little Colds." Thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds, cures big colds too, down to the very verge of consumption.

Itching piles? Never mind if physicians have failed to cure you. Try Doan's Ointment. No failure there. 50 cents, at any drug store.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, etc.
Hall's Family Pills are the best.

\$72.50 from Janesville to San Francisco, Cal., and Return.

Via the North Western Line. Excursion tickets will be sold May 7 and 8, limited to return within 30 days, inclusive, on account of the launching of the Battleship Ohio. Apply to agents Chicago & North-Western Ry.

\$72.50 to San Francisco, Cal., and Return via C. M. & St. P. R. R.

On May 7th and 8th, good to return 30 days from date of sale, acct. launching battleship Ohio. Further particulars at passenger depot.

Imitators have been many. Thoughtful people have learned that true merit comes only with the genuine Rocky Mountain Tea made by Madison Medicine Co. 35c. Smith's pharmacy; kodak agents, next to postoffice.

Homeseekers' Excursions via C. & N. W. March 19, April 2 and 10, May 7 and 21 June 4 and 18.

On above dates the C. & N. W. Ry will sell round trip excursion tickets to points west, south and southwest, including Denver, Colorado Springs and Pueblo, at one fare plus \$2 for round trip, limit 21 days. For further information see ticket agent C. & N. W. passenger depot. Telephone 35.

BROKEN SHAFT RUN
INTO HORSE'S BODY

Burt Richardson, who conducts a meat market in the Opera House block, on Milwaukee street, lost a horse Saturday afternoon, by having a broken shaft run into its body.

The delivery boy by the name of Erkanbrack, started from the market on Milwaukee street, to deliver some meat. When near Con. McDonald's residence he attempted to pass a farmer's team which was hitched to a lumber wagon. An approaching street car frightened the farmer's team and caused it to shy. The farmer's wagon struck against the rear wheel of the delivery wagon, and the shock broke one of the shafts off near the cross bar. In the mix up that followed, the shaft was driven into the horse, and the sharp end penetrated the bladder. The boy who was driving the delivery wagon did not think the horse was much hurt; he unhitched him from the wagon and jumped on his back to go on and deliver the meat. When near the residence of Herman Buchholz's on East street, the animal fell and soon expired. A veterinary surgeon was called, and found that death was caused by the injury to the bladder.

MURPHY LEAGUE
MEETING YESTERDAY

The Francis Murphy League held a very interesting and largely attended meeting at the Y. M. C. A. auditorium yesterday afternoon at three o'clock in the absence of the president, A. E. Matheson, the vice president, Fred Holden, presided and his happy remarks did much toward making the meeting a success.

The principal address of the afternoon was given by Mr. Tate, a traveling salesman. He is one of the most forceful and entertaining speakers who ever pleaded the cause of temperance before the members of the league. His remarks which were made up largely of his personal experiences, were of especial value because Mr. Tate knows what he is talking about, being a reformed drunkard and gambler. Mr. Tate added interest to his talk by illustrating the effect of intoxicating drink on a man's character and life. He used two glasses of water pouring in a little of the common drinks until the water was repulsive looking. He then likened the redemption of Jesus Christ to a chemical one drop of which would purify the loathsome mixture.

Among the other speakers of the afternoon whose able address was of practical value; Washington Kelly, who spoke eloquently for temperance; and George West who always has something to say and who is always sure of the kindly interest of the members of the league because he is one of those who gives all of the credit of his reform to the blue ribbon movement.

The Y. M. C. A. orchestra furnished excellent music for the occasion and J. C. Kline led the singing.

Dr. Bosworth Surprised.
Dr. R. W. Bosworth, pastor of the Beloit Methodist church, was made the victim of a pleasant surprise in celebration of the anniversary of his birth, last Tuesday evening. About one hundred of his friends gathered at the pleasant home of Mrs. J. T. Johnson, on School street and Dr. Bosworth was waylaid on his way home from a cottage prayer meeting. A pleasant feature of the occasion was the presentation of red and white carnations corresponding in number to Dr. Bosworth's age, given by little girls dressed in white. Refreshments were served.

Excursion Rates to the Pan-American Exposition, Buffalo, N. Y.

Via the Northwestern Line, will be placed in effect May 1st, and on Tuesday especially low rate tickets will be sold with favorable return limits. Direct connection at Chicago, with fast trains of all lines to Buffalo. For further particulars, apply to agents. An illustrated booklet will be mailed on receipt of two cents postage by W. B. Kniskern, General Passenger and Ticket Agent, Chicago.

"A cup of Mrs. Austin's Wheat Food makes breakfast for seven persons, hence is more economical than any similar preparation."

Gold Medal highest award to Harper whiskey at Paris, 1900; Chicago, 1893; New Orleans, 1885. Good as gold anywhere, anytime. We'd like your expert opinion. Sold by Kehoe & Cullen, Janesville, Wis.

Cook's Duchess Tablets.

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is received through the nostrils, cleanses and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

Announcement.
To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

The Difference in the FUEL

Coal and wood are wasteful fuels and the litter they make is doubly troublesome in hot weather. Get a Wickless Blue Flame Oil Stove and your fuel will be the same you use in your lamps. It will cost one-half cent an hour and you will burn every cent's worth you pay for instead of throwing a third away in ashes.

WICKLESS Blue Flame Oil Stoves

are as safe as coal stoves and they are cooler, cleaner, more convenient and more economical. Made in many sizes. Sold everywhere. If your dealer does not have them write to the nearest agency of

THE AMERICAN FLEET.

The purchase of the Leyland fleet by J. Pierpont Morgan is creating a good deal of discussion on both sides of the water. It is thought, that it may serve as a solution to the ship subsidy question, and the argument is used that if Mr. Morgan can afford to own and operate an American fleet that plenty of home capital will be invested in the same channel, and that the enterprise will develop, without government aid.

English journals congratulate the Leylands, on their good fortune in disposing of a lot of second-class vessels, and say that America can buy a number of foreign fleets, if so disposed and the money will be invested in new and modern ocean craft.

These foreign journals claim that it requires more than ships to make an effective merchant marine and intimate that the men to man them and the open markets to support them are more necessary than the fleet itself.

Regarding the subsidy question, it is extremely doubtful if public sentiment will ever favor this sort of a donation, which amounts to the purest kind of class-legislation. There is nothing in it but national pride, of a type that the public is not in sympathy with.

If it will pay to carry American products in American bottoms, American capital will not be found lacking, and if it won't pay, foreign capital is welcome to the investment. The new Chicago fleet will demonstrate what can be done a thousand miles from the sea board, with a small investment, and Mr. Morgan's venture will prove what can be done with a thoroughly equipped fleet, and a man behind it that knows nothing about failure.

So far as England's croaking is concerned, it is only necessary for the good people of the mother country to wait and watch developments. Mr. Morgan has bought a fleet because he had immediate use for it, and had no time to build one. The chances are that he didn't pay any more than it was worth.

The English corner on the markets is a thing of the past and with a few more hustling Americans like Yerkes in London, an American fleet will find plenty of business at the door-step of the old world.

With the balance of trade piling up so rapidly in our favor, England will do well to looking after her own laurels. She has ceased to lead the procession on land, and in ten years her merchant marine is liable to be trailing in the wake of a stronger fleet, with the Stars and Stripes at the mast head. Time will tell, and "time do move."

NEW MASONIC TEMPLE.

The Masonic Orders are entitled to congratulation on the spirit of enterprise that has prompted them to secure a site, and plan for a permanent home.

Masonry well represented is a credit to any city, and Janesville is well represented and has been for many years, in this ancient and helpful organization.

The work of the order is done so quietly and unostentatiously that people who are not interested, fail to recognize it and yet the work is faithfully done.

Many homes are made happier and the burden of many hearts made lighter, because of the beneficent work and influence of Masonry.

It is fitting that the order should have a temple, dedicated to its use and work. The location selected could not be better, and when the modest building is completed, it will stand as a monument, as sacred as any church in the city, representing principles that for centuries have touched humanity in ways peculiar to itself, yet always for good.

The prejudice against Masonry—that is rapidly disappearing—is due to ignorance and like all other prejudice against a cause that possesses intrinsic merit is harmless.

The order has stood the test of ages, and is stronger today than at any time in its history. The Gazette voices public sentiment in extending congratulations to the Janesville order, and wishing them continued prosperity. "So mote it be."

The assembly adopted the Hagemester amendment to the primary bill, as was expected. There was really nothing else for that body to do. If the measure becomes a law, the people will have an opportunity to test it, and if it works well, the next legislature can extend it to all branches of government. The perplexing question should be settled without further friction, and the houses should get together for future harmonious action.

The indemnity asked of China—\$73,000,000—is likely to bankrupt the nation, and may require the sale of some of her landed possessions. Experience is an expensive teacher, and China evidently courted trouble without counting the cost. What the fu-

ture of this much discussed country will be is difficult to determine. Civilization is liable to take a hand in straightening out the perplexing problem.

The fads of "Elbert Hubbardism" seem to be dying for want of breath. In fact, there has never been enough to him or his movement to answer more than as a spicy condiment. When people want solid, nourishing food they must turn from Hubbard and his "Philistine" to someone who has something to say and knows how to say it.

It is assuring to read some of the Havana papers favorable to the Platt law, they recognize the fact that Cuba is dependent on her powerful neighbor for her market; and recognize the fact that the time will soon come when we will be wholly self supporting as far as sugar and tobacco are concerned.

The Standard Oil Co. is contemplating buying the state of Texas; except for the fact that it cannot control the gas that goes to waste every year from that state to Washington, D. C.

Senator McLaurin is telling the old democracy that it is an obstacle to material and political progress, which gives a double warrant for a vote against the organization.

The Chinese have always been considered a very phlegmatic people, but they appear to be quite nervous just now.

Now that Mexico has signed The Hague peace agreement, we may expect to see her go to war like the others.

Now that the survey for the Nicaragua canal has been completed we may expect Chicago aldermen to bid for the contract.

J. P. Morgan does not seem to be in want of anything now, unless it be a trust in customer for his steel and passenger for his railroads.

GRADUATES FROM THE HIGH SCHOOL

The Class Includes 57 Students, 20 of Whom Are Young Men—Program for Commencement.

During the first week of next month there will be graduated from the Janesville high school a class, which, while not the largest in the history of the school, ranks well up among the leaders. Its membership includes fifty-seven students, twenty of whom are young men. Only two or three classes can claim the distinction of having a larger membership.

Of the fifty seven graduates, thirty-five have expressed their intention of continuing their education at college, university or normal school. This large percentage speaks more eloquently for the work being done in our high school today than almost any other fact. Of the number who intend to pursue their studies at some higher educational institution, more than half of them are young men. Less than a decade ago the young man who could be induced to complete the high school course was unusual. Contrasted with that state of affairs, the intention of nearly every young man graduated in this year's class to go to college is most significant.

The program for commencement exercises is completed and will include several novelties but the present intention is that the exact nature of the various exercises shall be kept secret. This plan of having each evening's program a surprise to the public has been followed for several years. The exercises will be held in the high school gymnasium and will occupy three evenings.

The following is the complete list of those who expect to receive graduation diplomas, Thursday evening, June 6, together with the course of study which they will have completed:

MYERS GRAND

Special Engagement.

Saturday, May 11

Chas. H. Yale and Sydney R. Ellis present the Golden Voiced-singer and German Comedian.

AL. H. WILSON,

IN THE ROMANTIC COMEDY, WRITTEN BY SYDNEY R. ELLIS.

"THE WATCH ON THE RHINE."

Seats on sale Friday, May 10. Prices: \$1. 75c. 50c. 25c. Matinee Prices: Children, 25c; Adults, 50 and 75c.

Scenic Investiture of Grandeur and Beauty of Company in Great Class Every Way of Every Scene carried complete of Comedy and pathos richly blending of Pure, innocent fun late spiced with scenes of intense interest.

Every maiden that has a sweetheart, every lover of home and mother, every mother that loves her little one, every youth that thinks he is in love, every husband and every father should hear Wilson sing "Love is All in All," "My Little Fraulien," "The Tea Kettle Song," "A Tyrolean Yodel," "A Song of Home," "When parading. Beautiful and bewitching melodies.

"That quaint, quiet, unctuous comedian with the wondrous golden voice—Al. H. Wilson made his first bow as a star in this city in "The Watch on the Rhine." Both play and player were generously received, and deserved so—for both made a great big hit."—Milwaukee Sentinel.

"No new star scored so distinctive a hit as did Al. H. Wilson. Before the play had progressed very far he was received literally with open arms by the audience. His singing was captivating; several of his songs are destined to become very popular."—Chicago American.

Theatre parties now forming. Lovers of a grand play, good singing and fine scenery, living in Edgerton, Evansville, Milton, Milton Junction, Monroe, Brodhead, Beloit, Sharon, Shopiere and Clinton phone for particulars.

Marguerite Halverson, English.
Jessette Murphy, Modern Classical.
Annie M. Stevens, Science.
Agnes Carroll, English.

All Souls Church Society.

The meeting of the members of the All Souls church society called for Saturday night, was well attended. It was called for the purpose of amending the constitution and adopting by-laws authorizing the sale of church property and the disposition of the funds. It was voted that the \$3,000 borrowed from the American Unitarian Association of Boston when the church was built and secured by a mortgage, be returned to them. Also that the other outstanding debts be paid, and the balance deposited in one of the savings banks of the city, subject to the order of the board of trustees. They are: Wm. Smith, Walter Helms, W. H. Merritt, Fred Howe and W. H. Greenman.

CASHIER OF BANK HOME.

Charles A. Johnson Returns to Niles with His Bondsman.
Niles, Mich., May 6.—Charles A. Johnson, ex-cashier of the suspended First National bank, arrived here early this morning together with his attorney and his bondsman. Johnson was driven to his home, where he is now with his wife and child.

In an interview he said he was glad to be home again and that he expected to remain here until October, when he will be tried at Grand Rapids. His reason for not accepting the offer of bail at the time of his first hearing was that he expected that a special grand jury would be called in April, and that he would then be tried. For the double purpose of lending the receiver of the bank his aid and for the comfort of being with his family, he says that he finally decided to give bail.

Concerning the bank's affairs Johnson is extremely reticent, although he intimates that he alone is not altogether responsible for the disaster, and that he sees no good reason why the concern should not pay depositors in full.

Kills Himself Drinking Alcohol.

Norfolk, Va., May 6.—The schooner L. E. Williams, which left New York Wednesday for the Bahama islands, put in here today with the body of her commander, Captain James H. Penton, aged 45 years, who died at sea yesterday. The members of the crew say that Captain Penton, after drinking all the liquor aboard his vessel, became crazed for more, and to satisfy his thirst drank a large quantity of raw alcohol. He died within a few minutes.

DRY GOODS, CLOAKS, MILLINERY

Things are Growing These Spring Days.

But nothing is growing faster than this business. The attractive, seasonable goods we are offering in every department at exceptionally low prices, bring us a constant increase in patronage. We would urge upon all Janesville people the importance of investigating our offerings, for there is certainly money in buying here. We quote below some of the prices that make us popular:

Summer Underwear For Women.

A most complete assortment of fine and gauze vests and nitted drawers is here. There is not a reasonable want that cannot be filled from this stock—economically fitted, too. Some hints of low prices: Low neck and no sleeve, also low neck and wing sleeve bleached Vests, 10 cents. Fancy pink and blue ribbed Vests, 12 1/2c. Silk taped, low neck and sleeveless Vests, 15c. Mer. creased or silk finish Vests, 25c. Derby ribbed umbrellas, drawers, 25c. Extra fine silk Vests, 50c. All sizes of children's low neck and no sleeve Vests, 10c; others at 15 and 25c. Special values in Men's Fancy ribbed Shirts and Drawers, 25c.

Women's Neckwear.

The pretty, summery kind—Every new collar, every new stock, every new tie, is represented in this collection of Women's Neckwear. If you would have proper neckwear you mustn't miss seeing this assortment. Prices run with an economical step, too. The new band collars with lace turn over edge, 8c, 10c, 15c, 19c, 25c, 50c. New white lawn stocks with long ends, 25c and 50c. New sailor collars, 50c, 85c, \$1.10 and up to \$3.

Parasols and Umbrellas.

A new line just direct from the makers, Follower, Clogg & Co., Lancaster, Pa., the largest manufacturers of Umbrellas and Parasols in America. Complete line of Umbrellas in black and colors, special values at \$1, \$1.35, \$1.65, \$2.25, \$2.75 and \$3.50. Nobby Parasols for the little ones, from 25c up.

BROOKS CASH TEA CO.

SITE FIXED FOR THE ST. PAUL DEPOT

LOCATED BETWEEN JACKSON
AND ACADEMY STREETS.

**Satisfactory Agreement Reached for
the Partial Closing of High Street
—Thirty-Foot Passage Way Will
Be Left To Accommodate the
Public Travel.**

The Chicago, Milwaukee & St. Paul railroad will build their passenger station between Jackson and Academy streets. An agreement in regard to High street has been reached which is entirely satisfactory to the residents of the street and will be accepted by the railway company. The understanding is that all the street be vacated except the easterly thirty feet, which will be left open for traffic. A petition signed by the most of the residents of the street will be presented to the council asking that the street be vacated in accordance with this agreement.

The opening of this passage way will necessitate a number of changes in the plans of the station, as they now stand. The car shed which is nine feet high over the company's property, will be raised by twelve feet over the passage way. This will make it high enough above the road bed for any sort of vehicle to pass through. The building itself will also have to be changed very materially. The lunch, express and baggage rooms will be east of High street and the waiting rooms, ticket office and other rooms will be west of High towards Academy street. These changes will detract somewhat from the general appearance of the building, but it will still be a building that the company can feel proud of.

In order to have this thirty foot passage way, which is to be left open for the use of the people, of any service to the railway company, the council will be asked to pass an ordinance allowing the company to block the crossing with a passenger train for twenty minutes. This will do away with the necessity of cutting a train in two as they would have to under the present city ordinance governing the holding of road crossings by trains.

The railroad company have been anxious to improve their station in this city for a long time, but have not been able heretofore to get a site where they could build a station and construct sheds of sufficient length to handle a long train. This agreement gives them about all they wish. They would rather have had the street closed but are willing to do anything that is fair in order to build the station.

This is really the best location in the city for the station, as it is convenient to the Northwestern and passengers from one road to the other an easy matter.

As soon as the plans can be changed and the matters in regard to vacating the portion of the street agreed upon can be fixed up, the company will be in a position to commence the building, which will be erected during the coming season. Janesville will then have two first-class passenger stations that will be an ornament to the city.

MISSIONS IN LAOS.

**Dr. Thomas, a Returned Missionary,
Will Lecture This Evening.**

Dr. Thomas, a medical missionary, who has recently returned to this country, will give a free lecture at the Presbyterian church this evening at 7:30 o'clock. His subject will be "Missions in Laos," and as this country which is subject to Siam, is one of the most interesting in the Asiatic mission field this evening's lecture should be full of valuable information to those who are interested in missions. A most cordial invitation is extended to the general public to enjoy the lecture.

Mrs. Diana E. Bancroft.

Mrs. Diana E. Bancroft, wife of George O. Bancroft died at her home in the town of Harmony yesterday morning at 7:30 o'clock. Her death was the result of a severe attack of pneumonia. Deceased was a most estimable woman, who was highly thought of by all who knew her. Funeral services will be held from the home Tuesday afternoon at 2 o'clock, Rev. W. W. Woodside officiating. The interment will be in the Harmony cemetery.

Recommends Insurance.

Janesville, Wis., April 29, 1901.—Union Mutual Accident and Health Insurance Society, Madison, Wis.—Gentlemen: I have this day received a full settlement of my claim against your society. I cheerfully recommend the Union Mutual Accident and Health Insurance Society to any one who desires protection against loss of time caused by accident or sickness. Respectfully,
E. J. OVERTON.

The State Bank of Orfordville, Wis., is responsible and asks a careful scrutiny as to its promoters. Is recommended by four governors and many banks. Pays four per cent. on six months and five per cent. on 12 months time deposits.

Skinned bull heads 10c. Pickerel, 8c. Bass and perch, 7c.

The cheapest meat you can get and a grateful change of diet. W. W. Nash.

Millionaires Swarm There.
Grosvenor square, in London, is said to contain the residences of more millionaires than any other area of similar extent in the world.

BRING HOME MANY LIBRARY POINTERS

COMMITTEE VISIT OSHKOSH,
APPLETON AND MENASHA.

**Messrs. Mayne, Fifield and Hayes Ac-
quire Much Valuable Information
During a Trip in the Northern Part
of the State—They Took Extensive
Notes On Their Trip.**

Supt. D. D. Mayne, Judge Charles L. Fifield and Michael Hayes, representing the plans committee of the library board, visited the new library buildings at Oshkosh, Appleton and Menasha last Saturday, leaving this city in the morning and returning in the evening.

It was a flying trip but the gentlemen are highly pleased with it and declare it to be one of the most profitable that could possibly have been taken. They spent about an hour in each building, inspecting the equipment and questioning the librarians and members of the library board.

During the trip the gentlemen acquired much information that will be of value to them. They will profit by the mistakes which have been made in these buildings and which they might otherwise have made and also received many valuable suggestions some of which were new to them.

The thing which most forcibly impressed the committee was the widening in the use of libraries. A visit to these three new libraries would be a revelation to the people of Janesville of what modern library practice means. The library of today and of the future is an educational center not merely a storage house for books. This broad spirit was largely evidenced in each of the three buildings visited.

The library at Oshkosh cost in the neighborhood of \$75,000 and while the building is more costly than the Janesville building will be, the most valuable suggestions were received in this building. The Appleton library which is combined with the city hall, was especially interesting because it most nearly represented the sum of money which is to be expended here and the library at Menasha is a very fine and convenient building which cost about \$22,000.

The committee took extensive notes on the cost of the various departments, the special features of each library and any information which may prove of value. The Oshkosh library is the only one in which the administration is expensive. All three buildings are open from nine o'clock in the morning until the same hour in the evening. All of them keep their reading rooms open on Sunday and all have open shelves to which the public have access. At each building the librarian was asked what she would have different of the building were to be erected over again and in each instance, the answer was "larger accommodations for the children." The value of this department had been underestimated in each building although all have commodious and attractive rooms. Arous and attractive children's rooms.

In each library the importance of the general educational work was very apparent. A great feature is made of club work and the lists of books for reference in this work are made out. The work of the children's clubs is remembered in the bulletins and all organized study finds help and encouragement at the library which forms the center of the club life in each of these cities.

When the committee arrived at the Oshkosh building they found a large audience of children listening to a talk on birds given by one of the teachers of the normal school. In the basement of the building were thirty boxes of books ready for shipment as a part of the traveling library for which the Oshkosh library is the center. In the Menasha library the gentlemen found a class of about 100 girls in a sewing class which is conducted by the women of the city. A boys' club also finds a home in the library. In speaking of the great good which had been accomplished by this work for the children a prominent citizen of Menasha said that through it the children, many of whom used to be disreputable little ruffians were actually becoming civilized.

The committee left Janesville on the seven o'clock train and reached Oshkosh, a distance of 101 miles, at 10:20 and at 12:25 they took the train for Appleton and a little over an hour later took the interurban road for Menasha, leaving the last named city for home at 4:08 o'clock.

BLIND STUDENTS GIVE FINE CONCERT

An Enjoyable Entertainment by the
Pupils of the State School
Last Saturday Evening.

One of the finest concerts ever given in the city was enjoyed by a small sized audience at the Y. M. C. A. auditorium on Saturday evening. Probably the time of the year and the fact that the evening selected for the concert is the busiest of the week conspired against a large attendance but it is to be regretted that such artists as he musicians from the State school for the Blind should be forced to play before empty chairs under any circumstances.

The evening's entertainment opened delightfully with an open air concert under the direction of Walter Getzinger. Several of the selections played were composed by the talented young leader. The band is an exceptionally good one.

The concert program given by the orchestra, assisted by Daniel Roberts as vocalist, was of a very high grade. The greater number of the orchestra selections were classical although some popular music gave pleasing variety to the program. The orchestra, under the leadership of H. W. Adams, plays exquisitely with a finesse of harmony and feeling that is as rare as it is enjoyable. It was equally pleasing in the dainty, subtle beauty of "Poet and Peasant" and in the inspiring strains of "Stars and Stripes." The orchestra accompaniments to the solos were also faultlessly played.

The solo numbers were very fine and each soloist was obliged to respond to an encore. Daniel Roberts rich and powerful barytone voice was heard at excellent advantage in "Blue Eyes." H. W. Adams again revealed his mastery power with the violin in "Polish Dance" and Walter Getzinger played a piano solo every note of which revealed his great talent and his love of music. A trombone solo by Chester Parish, a clarinet solo by Ludwig Ness and a string quartet by Leo Lange, George Luneburg, H. W. Adams and Sam Edgert, were among the delights of the evening.

GET COFFEE FROM ISLANDS

All Used in This Country Can Be Grown
IN OUR NEW POSSESSIONS.

Over \$1,000,000 a Week Now Paid to Dealers in Foreign Lands—Administration Probably Will Not Reimburse Priests to Philippines.

Washington, May 6.—The people of the United States are paying to foreign coffee-growers over \$1,000,000 a week. According to figures compiled by the treasury bureau of statistics, every pound of coffee consumed in this country can be grown in the Philippines, Porto Rico and Hawaii, which have already shown their ability to produce coffee of a high grade that for many years has commanded high prices in the markets of Europe. Porto Rico can produce an especially fine coffee that is very much in demand in Spain, Germany and France. The industry is comparatively new in Hawaii, but has been developed far enough to show that satisfactory results and good prices can be obtained for the product. Philippine coffee is as good as any grown elsewhere. The development of the industry is awaiting investment of American capital and brains and the treasury department believes that these will be forthcoming very soon in view of the probable return of peaceful conditions. Our coffee importations for the nine months ending March, 1901, amount to 617,344,000 pounds, with a value of \$54,218,000. The total value of coffee imported for the fiscal year is estimated at \$60,000,000, and this is slightly below the average for the past ten years.

Will Not Let Friars Return.

It is believed in Washington that when Cardinal Gibbons sails for Rome next Thursday he will have the final answer of the administration as to the course it will pursue in regard to the expelled friars of the Philippine archipelago. He will present this answer to the pope. Secretary of War Root, who has held a number of interviews with Archbishop Ireland, is understood to have given the archbishop a complete outline of the plans of the government and have made it clear that the expelled friars cannot return. The department is in full accord with the suggestions recently made by Archbishop Chappelle, who has recommended that American priests be sent to the Philippines to take the place of the friars. Cardinal Gibbons will not attend the dinner at the French embassy which Mr. Cambon is to give in honor of Cardinal Martelli tomorrow night.

Mrs. J. Y. Scammon Dead.

Chicago, May 6.—Mrs. Maria Sheldon Scammon, widow of J. Young Scammon, well remembered as a public-spirited citizen, died at 5:30 o'clock last evening at her home, 5310 Monroe avenue. It was only Saturday that a notable gift to the University of Chicago by Mrs. Scammon was announced. Through her generosity land on the Midway Plaisance valued at \$61,050 was donated as a site for the group of buildings to be erected for the School of Education, the name by which the Chicago Institute founded by Mrs. Emmons Blaine and recently merged with the University of Chicago is now known. Mr. Scammon, whose memory will live for many years to come, died in 1890 at the age of 72. He had been identified with Chicago since 1835 as a philanthropist, journalist, lawyer and man of affairs.

Big Plant Is Burned.

Chicago, May 6.—Fire of mysterious origin, which destroyed the plant of the Friedman Manufacturing company in the stock yards, entailing a loss of \$200,000, coupled with the fact that

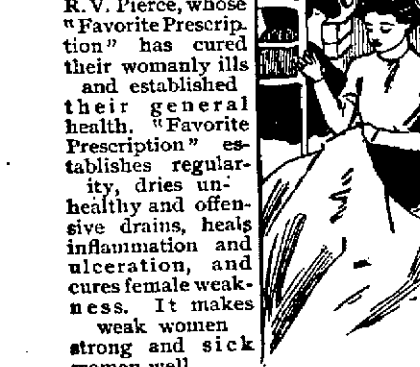

Sewing as a business is an exacting and exhausting occupation. Long hours, fine work, poor light, unhealthy atmosphere—these are only some of the things which fret the nerves and hurt the general health. Often there is a diseased condition of the womanly organism which causes backache or headache and the working of the sewing machine under such conditions is akin to torture.

Thousands of women who work have written grateful letters to Dr. R. V. Pierce, whose "Favorite Prescription" has cured their womanly ills and established their general health. "Favorite Prescription" establishes regularity, dries unhealthy and offensive drains, heals inflammation and ulceration, and cures female weakness. It makes weak women strong and sick women well.

Sick women are invited to consult Dr. Pierce by letter free, and so avoid the indecent questioning, offensive examinations and obnoxious local treatments deemed necessary by some physicians. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

"I take great pleasure in recommending Dr. Pierce's Favorite Prescription for female weakness," writes Mrs. Susanah Penner, of Paulsboro, N. J. "I was troubled with bearing-down pains in my back and hips for six years, and wrote to Dr. Pierce for advice. I tried his 'Favorite Prescription' and six bottles cured me. I feel like a new person and I thank Dr. Pierce for my health. Life is a burden to me without health. I have told a great many of my friends about the great medicine I took."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

Stomach Car Saved Him.

Omaha, Neb., May 6.—Whitelaw Reid and D. O. Mills passed through Omaha tonight on their way to Chicago. Mr. Reid displayed a bad scalp wound, which he received in the recent wreck. He said that if the car had not been substantially built the engine in the rear would have undoubtedly plowed its way down the aisle.

Vacancy in Episcopal See.

Boy Rout, May 6.—There is much interest here over the succession to the vacant Episcopal See of Bay Rout, the richest and most important in the Patriarchate of Damascus. The strongest candidates are Gerasimos Messair, archimandrite of Alexandria, and Rafael Hawawoni, the archimandrite of New York.

Senator Cullom has returned to Washington, where he will take up the study of important questions to come before the next Congress.

Nicholas Dulzer has been called to Syracuse, New York, by the serious illness of his sister.

the manner in which the Armour fire of a few nights ago started has not been accounted for, has given rise to the fear that incendiaries are at work in Packingtown.

Exposition Open on Sunday.

Buffalo, May 6.—The first Sunday of the Pan-American Exposition's official existence brought out a good-sized crowd. The gates were open, but the buildings were closed. Guards stood by the doors of the great exhibit buildings and told the visitors no one would be allowed to enter.

Maniac Stabs Nine Persons.

Gretna, Sweden, May 6.—While Baroness Augusta von Dusen was introducing a patient named Nehrmann into a hospital for nervous diseases here Nehrmann became violent, seized a knife and stabbed the baroness and her three daughters. The patient then escaped into the street clad only in underclothing, tried to force an entrance into several houses and attacked and wounded five persons before being overpowered. One of the daughters of the baroness has succumbed to her wounds.

Mirage Visible in Midlake.

St. Joseph, Mich., May 6.—A mirage that brought into view at the same time the cities of Chicago and St. Joseph was the remarkable sight witnessed by passengers on the Graham and Morton steamer City of Chicago in midlake on her last east-bound trip. Such a phenomenon probably has never before been seen on the great lakes. The steamer was thirty miles out from Chicago and about the same distance from St. Joseph when the look-out first saw the mirage.

Train Races with a Barn.

Hastings, Neb., May 6.—A small but genuine tornado tore things up in a lively way between Juniata and Hastings while a Darlington freight train was coming into Hastings from Juniata. The wind picked up a large barn and carried it straight toward the train for a distance of over 100 yards. The engineer saw his peril, put on full steam and a race followed, but the wind changed its course before reaching the train.

Stomach Car Saved Him.

Omaha, Neb., May 6.—Whitelaw Reid and D. O. Mills passed through Omaha tonight on their way to Chicago. Mr. Reid displayed a bad scalp wound, which he received in the recent wreck. He said that if the car had not been substantially built the engine in the rear would have undoubtedly plowed its way down the aisle.

Vacancy in Episcopal See.

Boy Rout, May 6.—There is much interest here over the succession to the vacant Episcopal See of Bay Rout, the richest and most important in the Patriarchate of Damascus. The strongest candidates are Gerasimos Messair, archimandrite of Alexandria, and Rafael Hawawoni, the archimandrite of New York.

Senator Cullom has returned to Washington, where he will take up the study of important questions to come before the next Congress.

Nicholas Dulzer has been called to Syracuse, New York, by the serious illness of his sister.

BOERS IN FORCE NEAR VAAL.

Farmer Fighters Are Concentrating Near Klerksdorp.

Cape Town, May 6.—The Boers are concentrating near Klerksdorp, in the Southwestern Transvaal, near the Vaal river.

General Babbington has frequent engagements with the enemy.

London, May 4.—The Standard says today that the war office is now more hopeful of the termination of the South African war than it has been for weeks.

The paper says that arrangements for food and forage for the army, based on the expectations that hostilities would be prolonged, are likely to be cancelled.

Workmen Oppose War Tax.

London, May 6.—Replying to a deputation from the Workmen and Sugar Tax Associations today the Chancellor of the Exchequer, Sir Michael Hicks-Beach, declined to consider the withdrawal of the sugar tax. He said it was the most important part of the present budget, and he did not believe workmen who had approved of the war in South Africa objected to pay something towards the cost.

Rhodes for Premiership.

Cape Town, May 6.—The Kimberley Advertiser, a newspaper controlled by Cecil Rhodes, urges that Rhodes should be made premier of Cape Colony, with the view of avoiding reversion to the crown colony form of government at the Cape.

Americans Claim Big Damages.

Washington, May 6.—Instructions have been sent by the state department to Ambassador Choate directing him to call the attention of the British government to claims for damages made by American citizens. These allege that they were driven out of the Transvaal by the British army, although they did not participate in any military operations.

Reported Captured by Boers.

London, May 6.—"News has arrived here," says the Cape Town correspondent of the Daily Express, "that Colonel Dennison, with a patrol of scouts, has been captured. The location of the mishap is not known in Cape Town."

HOW TO GAIN FLESH

Persons have been known to gain a pound a day by taking an ounce of Scott's emulsion. It is strange, but it often happens.

Somewhat the ounce produces the pound; it seems to start the digestive machinery going properly, so that the patient is able to digest and absorb his ordinary food, which he could not do before, and that is the way the gain is made.

A certain amount of flesh is necessary for health; if you have not got it you can get it by taking Scott's Emulsion.

You will find it just as useful in summer as in winter, and if you are thriving upon it don't stop because the weather is warm.

If you have not tried it, send for free sample its agreeable taste will surprise you.

SCOTT & BOWNE, Chemists,

An Old Friend

the front, and is now known in every city, town and hamlet in the country. Its staunchest friends are those who have known it longest and have witnessed its wonderful curative powers in their own families or among their friends and acquaintances. Grateful patients in all parts of the country tell of their restoration to health and happiness, and the testimony of these is the highest evidence of the medicine's worth. S. S. S. is more popular today than ever in its history—no other remedy stands so high, has ever given such perfect satisfaction or is so reliable in the cure of Cancer, Rheumatism, Catarrh, Contagious Blood Poison, Scrofula, Eczema, Psoriasis, Salt Rheum, Acne, or any disease that originates in the blood. Being strictly a vegetable preparation, you will find it agrees with you much better than a drug store concoction or any of the widely advertised potash and mercury remedies, which affect the bones, muscles and stomach, causing Rheumatism or Dyspepsia. If you have never tried S. S. S., you will be surprised at the immediate good effects, but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anemic people will find S. S. S. just the medicine they need, for blood poverty and ily nourished nerves are responsible for their condition. For old people and children S. S. S. has no equal; being free from all minerals, it does not nauseate or have any injurious effect whatever, and keeps the blood in good condition, thus fortifying against disease. Experience teaches what is good and what is not good; this applies particularly to medicine, and S. S. S., a remedy that has retained the confidence of the people for nearly 50 years, must have merit—it CURES, is the secret of its success. When you call for S. S. S. don't be persuaded to accept something else—there is no substitute for S. S. S. It is the only guaranteed purely vegetable blood purifier, and the safest and best for all blood and skin troubles. Do not let them force an inferior mineral remedy on you because there is a larger profit in it. If you have any blood or skin disease, don't hesitate to write us about it; our physicians will carefully consider your case and advise you without charge. Book on Blood and Skin Diseases free.

Don't Experiment—Take S. S. S.

for no sooner does it get into the circulation than the appetite increases; you grow stronger, and gradually but surely it drives out the poisons and restores the blood to a healthy condition. If there is a sore or ulcer on the body, it begins to heal around the edges, the discharge finally ceases and the place gets well; muscular and bone pains vanish, and the skin is relieved of all itching, irritating eruptions. Nervous, run down and anemic people will find S. S. S. just the medicine they need, for blood poverty and ily nourished nerves are responsible for their condition. For old people and children S. S. Going to Build

Whether you contemplate building at an early date or not, you should have a copy of "BAKER'S TWENTIETH CENTURY HOMES" It is the most complete book of Architectural Designs published. Nearly 150 pages, printed on heavy enamel paper. It is not a theoretical book. Every design shown is from the actual working plans of buildings that have been erected under the direction of our supervising architect. Consequently it is practical in every respect. It embraces subjects from an attractive cottage at a few hundred dollars to a modern, up-to-date residence, costing many thousands of dollars. The perspectives are full-page illustrations while the floor-plans are half-page sketches. The descriptions are complete and easily understood; in fact it is an ideal book of practical, up-to-date designs and intelligent descriptions. The regular price is \$2.00 but we would like to present you a copy free of charge. If you could call at our office we would take pleasure in presenting you a copy free of charge. As this is not possible, we will send you a copy by express, charges prepaid upon receipt of only 25c, to cover cost of transportation.

SEVEN BURNED TO DEATH

Eight Others Injured in a Blazing Fire-Trap.

TWO BOYS PROVE HEROES.

They Save Five Persons at the Imminent Peril of Their Own Lives—Difficulty in Reaching the Fire at South Chicago, Ill.

Chicago, Ill., May 6.—Fire that destroyed a three-story frame building at 9313 Marquette avenue, South Chicago, at 2 a. m., caused the death of seven persons and badly injured eight others, two of whom are likely to die. In the brief space of twenty-five minutes devotion, blind faith and heroism were displayed as these qualities are seldom displayed anywhere; seemingly unaccountable carelessness held the firemen away from the scene till it was too late for them to save anybody; a frenzied husband and father, who believed in the faith of Dowie, succeeded in keeping his wife, terribly injured and burned as she was, away from the physicians who wanted to relieve her suffering, and had her taken to Zion, where she now lies at the point of death; an angry mob of people tore his little child from the father's arms and placed her in the hands of the physicians. And while the excitement was at its height and fifteen persons were suffocating like rats in a trap, a 12-year-old boy, with the aid of a companion only a little older than himself, saved five of them from certain death and helped to bring them safely to the ground.

List of the Dead.

The dead are:
Mrs. Josephine Cooley, 31 years old; Mabel Cooley, 6 years old, daughter of Joseph Cooley; Annie Cooley, 15 months old, daughter of Josephine Cooley; Peter Zook, 50 years old, owner of building; Mrs. Peter Zook, 40 years old; Victoria Zook, 14 years old; Nicholas Zook, 15 years old.

Heroic Work of Boys.

Johnny Smith, who lived with his parents in the adjoining house, was one of the first to arrive at the fire. He was clad only in his nightgown, but became the means of rescuing Louis Christensen and his family. While the frantic father, standing at the third-story window yelling for help, seemed to be beyond the reach of aid, the 12-year-old boy ran to the basement of his own home and returning with the family clothesline tossed it, larriat fashion, to Christensen. The latter's wife had already leaped from the high window, but the husband waited till he had lowered his four children to safety before he descended himself. Mrs. Christensen was picked up terribly burned about the face and body, and her little girl, Mabel, also badly injured by the flames, was taken off the rope by young Smith and given into the care of neighbors. During the fire the son of Frank McKee, who lived a block away, heard Christensen's story of distress, and told him to take his family to his father's house, where they would be sheltered. Mrs. Christensen summoned strength enough to walk the distance, while Christensen picked up Mabel and carried her to the McKee home, followed by the other children. The mother was frightfully burned about the face and hands, and her limbs were scorched from the hips to her feet so that the flesh and skin peeled off in layers at the slightest touch.

Or the eight who are seriously injured, three may die.

War Heroine Dying in Poverty.
St. Joseph, Mich., May 6.—Mary Cochran, who saved the life of Col. Mulligan of the famous Mulligan Guards of Chicago during the civil war, was discovered today living in a hovel in the village of Stebensville, a few miles south of here, in a state of absolute poverty. She entered the civil war as a nurse, and was assigned to Mulligan's brigade. Mulligan was severely wounded at Lexington and removed to Island No. 10. It was here that Indian Mary nursed him back to life. Her father was an Indian and her grandfather an Indian chief.

Shot for Shooting a Dog.
Brazil, Ind., May 6.—As Attorney L. C. Phillips was returning on a bicycle from a visit with a friend a dog ran out from a movers' camp and attacked him. Phillips shot the dog and its owner fired a load of buckshot into Phillips' body, inflicting very serious wounds. The movers have not yet been captured, but officers are searching for them.

ADJOURNMENT IN THE AIR

Both Houses are Getting Ready to Quit Madison As Soon As Possible

Madison, May 6.—Adjournment is in the air. It is manifest in the feverish haste of both houses to dispatch business, in the preparation for home-going, and in a thousand little things familiar enough to those who know the ways of the legislatures. But the adjournment may have to be postponed. There is the congressional apportionment committee with untold possibilities for trouble and for stirring up feeling which may destroy all desire for adjournment. Then there is the possibility of a veto of the senatorial apportionment bill which would make it necessary for the members to remain until a bill could be perfected.

May Die Without Veto.

The senatorial bill is in the hands of the governor, but the primary election bill is still in the hands of the chief clerk of the senate. Both were finally disposed of on Saturday night. The senatorial bill was disposed of so that it could be reported this afternoon, but the primary election bill—a much shorter measure—was not enrolled in time and it cannot be sent to the governor until tonight at the earliest, and probably not until Tuesday morning. If he holds it three days as he can if he desires, it will be the end of the week before the legislature will know its fate. If the bill should not reach him before Wednesday it might die with the session, unsigned but not vetoed.

Anti-Trust Bill Passed.

By the close vote of 12 to 11 the senate Saturday morning passed the McGilivray Anti-Trust bill.

The bill prohibits any person or individual from entering into a pool, trust or combine and provides a penalty of from \$50 to \$3,000 for the violation of its provisions. The opponents of the measure say that it will be killed in the assembly.

Kills Death Penalty Bill.

The assembly saved Judge Orton from becoming the father of a law reestablishing the death penalty in this state, by killing his bill. Judge Orton is one of the most genial men in the legislature with very little severity in his make-up, but he thinks that murder under some circumstances should be punished by death. He was too tired and ill to work for the passage of his bill and he let it die without making any effort to save it.

Brewing Interests Fare Well.

The brewing interests have fared well at the hands of this legislature. Not a single bill dangerous to their business has passed. There were a lot of them introduced including a pure beer bill, the usual "milk limit" measures, a ward option bill and various other things, but they have all been killed. None of them caused as much trouble as usually comes from this measure.

Oregon in Carrying Trade.

San Francisco, May 6.—It is said that the Oregon Railway & Navigation company is going into the competition for the carrying trade of the Orient. The British steamship Indrapura, from Calcutta, has been chartered by the company for three years, and will in a few days proceed to Portland to load flour for Hongkong and other Asiatic ports. The company has chartered the Indravelli, a sister ship to the Indrapura.

A Big Catch of Seals.

Victoria, B. C., May 6.—A fleet of Alaskan sealing schooners has arrived here and report the following catches, the largest for some years: Allie I. Alger, 274; Triumph, 279; Ocean Belle, 170; Florence M. Smith, 352; Favorite, 161; Vive, 332; Libbie, 117; Anioaka, 76, and R. I. Morse, 69. Among the catch were three seals branded by the United States on Pribiloff islands. They were taken south of Cape Flattery.

Armed Guard for Smallpox.

Cumberland, Md., May 6.—This city this morning adopted a shotgun quarantine against a smallpox infected community twelve miles distant, where one hundred farmers have the disease. Armed guards are holding up farmers with loaded teams outside the city limits. The latter threaten to sue the city.

Strike Becoming Serious.

Barcelona, Spain, May 6.—The strike of the tramway employees is becoming more serious, and the government probably will suspend constitutional guarantees. Yesterday evening the strikers tried to tear up the tramway track, and were driven off bygendarmes, who opened fire on the mob.

Faster a Minute in Each Mile.

Southampton, May 6.—Captain Wringe of the Shamrock II, is of the opinion that the Shamrock II can, in the trial races, give a minute in each mile to the Shamrock I. The trial race between the two Shamrocks will take place the middle of next week. The Shamrock II had her first trial under canvas today.

To Buy Aragon Iron Mine.

Milwaukee, Wis., May 6.—The Aragon iron mine, one of the most valuable properties in the Lake Superior region, will be bought by the United States Steel Corporation. The price is \$2,500,000.

Loan Report Discredited.

Berlin, May 6.—German financiers having close relations with the Russian government discredit the report of a Russian loan of 500,000,000 marks from France.

Mr. and Mrs. J. R. Hemer of Clinton spent the day in the city.

900 DROPS

CASTORIA

A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

INFANTS & CHILDREN

Promotes Digestion, Cheerfulness and Rest. Contains neither Opium, Morphine nor Mineral. **NOT NARCOTIC.**
